Renown for taking the most creative approach to learning, Edison encompass developing technology combined with advanced learning materials that enhance and accelerate your learning experience, getting you results – fast.

So when it comes time for you to stand out, show that you can deliver with an internationally recognised APM qualification from Edison.

APMP Course and exam

APMP (IPMA Level D) is a knowledge based qualification. Successful candidates are able to participate in projects from individual assignments through to large capital projects. APMP is a qualification recognised both nationally and internationally that successful candidates can carry from one job to another or from one industry to another.

APMP is aimed at project managers and aspiring project managers who wish to demonstrate their knowledge of project management at a foundation level. APMP covers 37 knowledge areas from the APM Body of Knowledge. Knowledge of these areas is considered fundamental to the professional management of projects.

The APMP assessment involves one three hour written essay-based paper. APMP assesses the candidate's breadth of knowledge in all areas of project management, from strategic and commercial implications, to the technical, organisational, and people management skills required to participate effectively within a project team.

This qualification allows candidates to demonstrate knowledge of all elements of project management in order to assist in the management of projects. Candidates with this qualification will be able to demonstrate an understanding of how these elements interact. They will also be able to understand how their project fits into their strategic and commercial environment.

NEW - Free access to myapmp.com for all APMP candidates

As well as tutor support for exam preparation, all candidates get access to the advanced learning portal myapmp.com, which provides video lectures, quizzes and resources of interest to all candidates, either preparing for the course, or in exam revision. What this level of support means to you is exam success..first time.

Now also available as a Learning in a Box option

The APMP is now available in our new learning system, Learning in a Box.

If you haven't got the time to attend a classroom event, then no problem because with Edison's new Learning in a Box supported distance learning system you have the benefits of VODoc®, one of the most advanced material presentations, together with expert tutoring means it is almost like being there in person. Each course has its own support website packed with extras to give you that rich learning experience.

APM qualifications are stand alone awards designed to meet your people development and business needs at different stages in your professional development planning. They give your people the opportunity to take their career in new and exciting directions demonstrating their ability to manage complexity and turn ideas into reality, helping your business excel.

The APMP is often the second step to a structured learning and development approach to a career in project management. Although candidates would benefit from attendance at the Introductory Certificate prior to APMP, this is not essential.

All of Edison's 2011 courses are presented with VODoc®, the unique learning material, see more at www.edisonuk.com/vodoc

VODoc® is a Visually Orientated Document and is a registered trade mark of Edison Learning International Ltd
